A Foundation to Implant Dentistry

Start strong, build confidence and level up your skills. This beginners implant course is the ultimate entry point for clinicians who want to bring implant dentistry into their practice. Combining theory with hands-on experience, you'll gain the surgical confidence to start placing implants successfully.

LEVEL 7 DIPLOMA IN ADVANCED FULL ARCH IMPLANTOLOGY

THE ULTIMATE FULL-ARCH IMMEDIATE LOAD COURSE

Dental professionals looking to advance their implant skills have the unique opportunity to directly treat full-arch patients and **earn a Level 7 EduQual approved Diploma!**

We invite you to join an unprecedented course led by renowned dental implant expert Dr Adeel Ali and his colleagues. Alongside unmissable lectures and live demonstrations, this intensive training provides hands-on experience where participants will perform full-arch immediate load procedures under the direct supervision and guidance of Dr Ali and his expert team.

By the end of this course, you'll have the skills and expertise to begin offering Immediate Full-Arch Load cases to your patients.

This comprehensive beginners masterclass will provide delegates with:

- Comprehensive understanding of IFAL and workflows
- Experience with Pterygoid and Nasal Maxillary Implants
- Hands-on experience carrying out full arch immediate loads
Live hands-on support by technicians on-site
- Advanced oral surgical techniques including sinus grafting, frenectomies and block grafting
- Business strategies for building lucrative implant practices

PRESENTED BY LEADING DENTAL IMPLANT SURGEONS

DR ADEEL ALI

Implant Growth Academy Founder & Internationally Renowned Clinician

Dr Adeel Ali is a clinician, innovator, and educator whose work bridges cutting-edge surgical implantology with strategic business growth in dentistry. He is the author of the Scaled for Success: The Komodo Approach to Dental Entrepreneurship, and leads implant training programmes under the Implant Growth Academy Internationally. He concurrently practices and supervises implant clinics in the UK and the Middle East, and is recognised as one of the most prominent Evertis practitioners in the UK.

DR VICTOR GEHANI

Academy Educator (Restorative and Prosthodontics)

Victor Gehani qualified in 2000 and, after training at the Eastman Dental Institute, began working in General Dental Practice in the UK. He holds multiple postgraduate qualifications, including an MSc in Implantology and fellowships from the ICOI and IADFE. An honorary Fellow of the Pierre Fauchard Academy, Victor is also a Fellow of the Higher Education Academy and co-directs the Advanced Centre of Excellence (ACE), a postgraduate training academy in Prosthodontics and Restorative Dentistry.

DR ANUP LADVA

Academy Educator (Restorative and Prosthodontics)

Dr. Anup Ladva is a highly experienced dentist with over 20 years in practice, specialising in advanced prosthodontics and primary care; holding an MClinDent in Fixed and Removable Prosthodontics with Distinction from King's College London, where he now teaches, he is passionate about ethical, high-quality care, mentors young dentists, and delivers hands-on courses in advanced techniques and problem-solving.

DR RICKY BHOPAL

Academy Educator (Restorative and Prosthodontics)

With BDS Honours from the University of Manchester and multiple academic awards, MFDS from the Royal College of Surgeons of Edinburgh, and a Distinction in specialist prosthodontics at King's College London, he is a specialist prosthodontist and implant surgeon who lectures at King's College and chairs the ADI Next Generation Committee, with a strong focus on integrating digital dentistry into patient care.

DAY 1 17th January 2026 | Foundations and Hands-On Practice

- **Morning:** Engaging lectures on full-arch immediate load principles and essential workflows
- **Afternoon:** Hands-on practice on models for implant placement and restoration Introduction to advanced pterygoid and nasomaxillary implants
- **Evening:** Peer networking and discussion

DAY 2 18th January 2026 | Live Surgery Observation & Workflow Insights

- **Morning:** Join Dr. Adeel Ali for a live surgery demonstration showcasing the Neomax concept on an atrophic maxilla, while exploring the complete digital clinical and lab workflow in action.
- **Afternoon:** Deep dive into the medicolegal aspects of full-arch immediate load treatments.

DAY 3 14th & 15th February 2026 | Advanced Immediate Load Surgery

- **Full Day:** Each delegate will perform full jaw immediate load surgeries in pairs and will be allocated one of the two dates above. Observing delegates will be able to attend both dates. Each delegate will be fully supported by a dedicated sedationist and implant nurse.

DAY 4 7th & 8th March 2026 | Advanced Immediate Load Surgery

- **Full Day:** Delegates will work in pairs again and will perform their third and fourth arch surgeries assisted by a sedationist and an implant nurse.

DAY 5 12th April 2026 | First and Second Arch Restorations

- **Morning:** Delegates will be taught the fundamentals of occlusion and restorative protocols with respect to full arch prosthetics.
- **Afternoon:** Delegates will have the opportunity to take digital records of their patients, including intra-oral scanning and photogrammetry for final fittings.

DAY 6 24th May 2026 | Try-In Session

- **Morning:** Conduct 3D printed digital try-ins for the first and second arches, respectively. This day concludes with comprehensive case discussions to consolidate learning.
- **Afternoon:** Delegates will be taught effective communication skills for discussing complex treatment plans, as well as how to manage prosthetic and surgical complications.

DAY 7 21st June 2026 | Course Conclusion

- **Morning:** Final fits and case discussions to review outcomes and share experiences.
- **Afternoon:** Learn the secrets to scaling your implant practice with an exclusive lecture focused on the business side of immediate implantology with Neodent. Delegates will learn transformative growth strategies to enhance patient satisfaction, scale their business, and leverage innovative approaches to attract more leads and maximise profitability.
